

March 30, 1984

LB 1129

PRESIDENT: Senator Richard Peterson.

SENATOR R. PETERSON: Mr. President and members, I rise to support this motion for override. This is the final portion of what it will take to get the Willow Creek going and get it in fine shape. In regards to the remodeling of renovation of a homestead, I think it was pretty evident that they figured that this would be cheaper probably to do this and for the employee to live right out there than it would be to put a mobile home or something like that out there. So that is one of the...they really took a good look at this I think and it looks like if we can get this \$80,000 for capital construction that Willow Creek will open up and I think it will be an asset to the whole community and it is much needed for up there. If we don't get it we are probably going to be in trouble for not opening it. So it is very crucial that we get this capital construction. I would ask for its adoption. Thank you.

PRESIDENT: Senator Lamb.

SENATOR LAMB: Mr. President and members, we have done enough. I don't think that we need this additional \$80,000 for this project. We have already okayed what is it, \$276,000 overriding the Governor's veto for NRD, similar to this \$80,000, except it is not in capital construction. I realize that some people are going to be unhappy about it. I think we have gone as far as we should go. I would recommend not overriding this veto.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, I certainly can appreciate Senator Lamb's comments and I am inclined to agree with him, right after this vote. Or maybe one more. But, the truth is, as I understand it at least, the reason that this \$80,000 is in the capital construction budget is because in fact that it is capital construction as opposed to the funds that were in the operational budget and obviously, as has been indicated, it is the remodeling of a home that is there so that it can be utilized as well as the maintenance shed.
